

Instructions for visiting the Abbey for private prayer

On arrival at the Abbey, please use the hand sanitiser provided and familiarise yourself with the requirement for social distancing on entry and exit, and within the building.

While in the Abbey, adhere to restrictions on access to certain areas, and the designation of seating suitable for use.

On leaving, use the sanitiser provided.

If you wish to use a prayer book or bible, please bring one with you. You do not need to wear a face covering, but please do so if you wish. The Abbey may not look and feel as it usually does, please recognise that this is a step towards being able to restore access to all the churches for the communities they serve.

Should we become aware that someone with COVID19 symptoms has visited the Abbey within a 7 day period, we will close the Abbey immediately for 72 hours and then undertake a clean. If we are aware of others who have been in the building in those 7 days, they will be contacted.

Please note that the Abbey is **NOT** open to tourists, groups or for acts of worship (eg Sunday services). Small scale funerals may now be possible.
